Education

Presidency University — Bengalore,Karnataka
Computer Science Bachelors of Technology — August 2022 - July 2026
CGPA: 7.50 CGPA

Varadadri PU College — Bagepalli,Karnataka
PCMB Pre-University Course (PUC) — July 2020 - May 2022
Percentage: 85.16%%

Adarsha Vidyalaya — Bagepalli,Karnataka
SSLC (Secondary School Leaving Certificate) — June 2019 - July 2020
Percentage: 94.24%%

Experience

Dhee Coding Lab | Java Full-Stack Developer Intern — BTM,Bengaluru India | July 2026 - Present

* Pursuing hands-on training as a Java Full Stack Developer, developing skills in Core Java, OOP, HTML, CSS, JavaScript, React.js, and SQL.
* Gaining practical experience in frontend, backend, and database development through coding exercises and real-world development projects.
* Strengthening problem-solving and software development skills through hands-on work with JDBC, Servlets, J2EE, and foundational web technologies.

Skills

Programming Languages:	Java, HTML, CSS, JavaScript, Java8, DSA
Libraries/Frameworks:	React.js, JDBC, J2EE, TailWind CSS
Tools / Platforms:	Git, GitHub, VS Code, Eclipse IDE
Databases:	SQL

Projects / Open-Source

Student Management Application *["Java", "JDBC", "MySQL", "OOP", "DAO", "DTO", "React.js"]*

* Developed a student management application using Java, JDBC, MySQL, and OOP principles to manage student records efficiently.
* Implemented CRUD operations for student information, course enrollment, and academic records.
* Designed and integrated a relational MySQL database for structured and efficient data storage and retrieval.
* Used PreparedStatement for secure and efficient database operations, helping prevent SQL injection. Applied DAO and DTO design patterns to separate data access and data transfer responsibilities.
* Built a React.js frontend to improve data accessibility and provide an interactive user interface.

E-Commerce Web Application *["HTML5", "CSS3", "JavaScript", "React.js", "UI/UX"]*

* Developed a responsive e-commerce web application using HTML5, CSS3, JavaScript, and React.js with a focus on usability and cross-device compatibility.
* Created structured product pages, reusable UI components, and intuitive navigation to provide a user-friendly shopping experience.
* Implemented responsive design techniques to ensure consistent layouts and functionality across desktop, tablet, and mobile devices.
* Applied UI/UX principles to improve accessibility, visual consistency, and overall user experience.

Certifications

- Web Development - SkillCraft Technology.
- Learn Java Pro - CodeChef.
